

# 4th International Joint Symposium, 2019 Juntendo University – Inje University on Diabetology and Cardiology

**Date** November 21, 2019, 14:00 - 17:00  
**Venue** Collabo Space, B1, Research Bldg. A

13:30 Registration  
14:00-14:10 Welcome Remarks

14:10-14:20 Opening Remarks

14:20-14:50 Special Lecture 1

Prof. HAN Jin, M.D., Ph.D., Dept. of Physiology, College of Medicine, Inje Univ.

Molecular mechanism of exercise-induced cellular adaption

14:50-14:20 Special Lecture 2

Associate Prof. MIYATSUKA Takeshi, M.D., Ph.D., Dept. of Metabolism and Endocrinology, Graduate School of Medicine, Juntendo

Modulating cellular plasticity within the pancreas for curing diabetes

15:30-16:00 Special Lecture 3

Associate Prof. KIM Hyoung-Kyu, Ph.D., Dept. of Physiology, College of Medicine, Inje Univ.

CaM kinase activation enhanced cardiac functions in type 2 diabetic animal model

16:00-16:30 Special Lecture 4

Associate Prof. IWATA Hiroshi, M.D., Ph.D., Dept. of Cardiovascular Medicine, Graduate School of Medicine, Juntendo Univ.

The clinical and experimental significance of macrophage activation in cardiovascular disorders

16:30-16:40 Closing Remarks

Language: English  
Admission Free  
No Pre-registration Required

Host: Juntendo University  
Co-Host: Inje University

Graduate School Special Lecture
