

Welcome Remarks

As you may know, the 10th International Symposium on Autophagy (ISA), initially scheduled for May 2021, has been postponed due to COVID-19. While the world has been continuing to fight against the coronavirus, we have worked to hold this symposium face-to-face in October 2022. It is a pleasure and honor to welcome participants from all over the world to the 10th ISA being held in Sapporo from October 23rd to 27th, 2022. I am very grateful that so many international participants came to Japan despite the ongoing COVID-19 outbreak, the Ukraine-Russia crisis, and other challenges.

As with past ISAs, the world's leading scientists in the autophagy research field have joined us. Junior scientists and graduate students will be able to exchange their ideas with them and might obtain valuable comments from them in the poster presentations.

The venue is Chateraise Gateaux Kingdom Sapporo Hotel and SPA Resort located in Sapporo. Sapporo is the capital of Hokkaido, which is the northernmost island of Japan, surrounded by the Sea of Okhotsk, the Sea of Japan, and the Pacific Ocean. Hokkaido attracts many travelers with its vast land and beautiful nature.

We believe that you will be able to enjoy high-quality science with fruitful discussion and will be able to discover your own Hokkaido during this symposium.

Masaaki Komatsu, Ph D.
Chair, The 10th International Symposium on Autophagy
Professor, Juntendo University Graduate School of Medicine

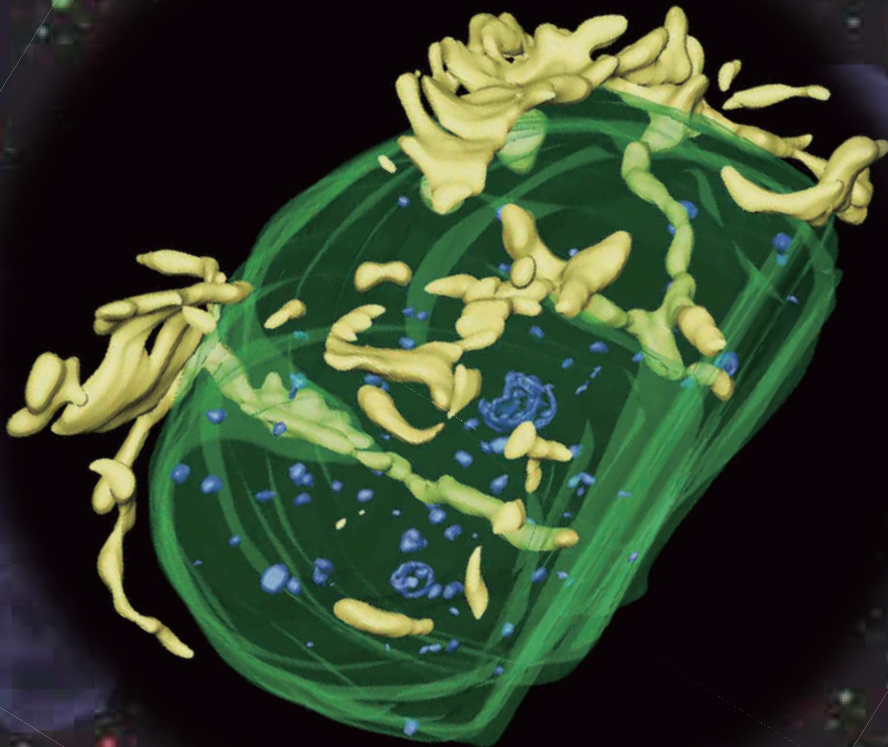

The 10th International Symposium on *Autophagy*

October 23(Sun) - 27(Thu), 2022
