Faculty of Health and Sports Science

~A Guide to the Three Departments~

Juntendo University was the first to establish a Faculty of Health and Sports Science in Japan (1993). We offer three departments to choose from, each of which will maximize the potential of Sports and Health, and open up your future.

Qualifications and licenses which you can acquire:

- Department of Sports Science
  - First-class teaching certificate for upper secondary school (health education)
  - First-class teaching certificate for lower secondary school (health education)
  - Physical education teaching certificate for special needs education school
  - First-class teaching certificate for physical education
  - First-class license for social welfare worker

- Department of Sports Management
  - Certification for physical fitness

- Department of Health Science
  - Certification for physical fitness
  - Certification for physical therapy
  - Certification for nutritionist

There are restrictions to the number of qualifications and licenses you can obtain at the same time according to the organization of classes.

Department of Health Science

Admission capacity: 80 students

Becoming Specialists in Health Promotion

You will acquire a wide range of knowledge and techniques, particularly dealing with individuals who seek general health promotion and health support. This discipline aims to create specialists in education, healthcare and welfare who can take active roles in schools, administrations, and corporations.

Department of Sports Science

- Medical / Welfare Industry: 4.2%
- Professional / Industrial League: 8.3%
- Sports Industry: 11.1%
- Engaged in Further Study: 5.6%
- General Enterprises: 66.6%

In this department, students will gain the ability to take active roles and the problem-solving skills in sports business. Particularly, bringing the Olympics/Paralympics and other sporting events to success will be great achievements in their future careers. With a comprehensive view of sports, its social value will be intensified.

There are 24 sports clubs and 10 associations you can join. We have sent many athletes to the Olympics and Paralympics and won medals. Students encourage each other to achieve mutual success with the spirit of “Keep Inspired to Keep Progressing”. The bonds of friendship will be fortified throughout the four years of club activities, which will last even after graduation.
